

UniDoc Expands AI eHealth Services to Alaska

-- Pilot Project To Test Innovative Health Cube in Remote Communities

VANCOUVER, British Columbia, April 16, 2024 -- UniDoc Health Corp. (CSE: UDOC) (FRA: L7T) (OTCQB: UDOCF) ("UniDoc," or the "Company"), an innovator in the eHealth sector, proudly announces the deployment of an H3 Health Cube to Ketchikan, Alaska. This initiative, in collaboration with Planet Defense, LLC, marks a significant advancement in delivering healthcare solutions to remote and underserved areas.

Key Take Aways:

- UniDoc's first Health Cube reaches Alaska, enhancing healthcare accessibility
- This pilot project to evaluate the operational and societal benefits of the Health Cube
- A strategic move in partnership with Planet Defense to extend AI eHealth services across Alaska and beyond

Antonio Baldassarre, CEO of UniDoc, comments, "We are thrilled about this initial launch with Planet Defense. This collaboration underscores our commitment to enhancing healthcare delivery. Leveraging our technological prowess alongside Planet Defense's strategic insights helps to ensure a successful trial and strengthens our mission to serve even the most isolated communities."

This collaboration aims improve the access that such challenged communities have to quality healthcare and will make it possible for even the most vulnerable populations to consistently receive essential medical services resulting in improved patient outcomes.

The UniDoc cube will be outfitted with remote connected medical and will offer patients a wide range of medical services such as primary care, specialized consultations, chronic disease management, and preventative care. These real-time, in-person and eHealth consultations, as well as effective diagnostics, treatments, and monitoring options will aid patients in better managing their health and wellness conditions. By leveraging such capabilities, these clinics aim to bridge the gaps currently existing between patients from rural and underserved populations and their healthcare providers. Each deployed clinic will be staffed with a registered nurse (RN) and a qualified technology specialist.

Dr. Indu Singh, President and CEO of Planet Defense LLC, stated, "Rural and underserved populations utilizing our Smart Health Remote Clinics will benefit from this collaborative effort which will then lead to accessible, equitable, and inclusive healthcare for all regardless of location or socioeconomic status. By bringing advanced healthcare services directly into underserved communities, our creative solutions will address the challenges of geographical distance, transportation limitations, and the lack of healthcare infrastructure in remote areas. Doing so will have a positive impact on communities in need – improving patient healthcare outcomes and enhancing patients' overall well-being."

On Behalf of the Board of Directors,

Sincerely,

~Antonio Baldassarre~

About UniDoc Health Corp. (CSE: UDOC) (FRA: L7T) (OTCQB: UDOCF)

UniDoc is developing an eHealth solution which is being designed as a self-contained remote virtual clinic within a private kiosk for patients to undergo full consultations as if they were present in a physician's office. eHealth

opens the doors to a large segment of the population challenged by access, experience or understanding of online computer technology. It is the Company's belief that physical accessibility is the key to its business proposition. UniDoc is dedicated to unlocking shareholder value by delivering an excellent product and sophisticated commercial network within an expedited timeframe. The UniDoc team encourages engagement, questions, and interest, so please stay in touch and invite anyone who might be interested in our story to visit our website at www.unidoctor.com and sign up to receive the latest information with updates on our activities, events and progress.

Forward-Looking Statements

This news release contains statements and information that, to the extent that they are not historical fact, may constitute "forward-looking information" within the meaning of applicable securities legislation. Forward-looking information may include financial and other projections, as well as statements regarding future plans, objectives, or economic performance, or the assumption underlying any of the foregoing. In some cases, forward-looking statements can be identified by terms such as "may", "would", "could", "will", "likely", "except", "anticipate", "believe", "intend", "plan", "forecast", "project", "estimate", "outlook", or the negative thereof or other similar expressions concerning matters that are not historical facts. Examples of such statements include, but are not limited to, statements with respect to the success of the trial deployment of the first UniDoc Health Cube in Alaska, the features and functionality of the Health Cube, and the expected benefits of the Smart Health Remote Clinics to underserved populations.

Forward-looking information is based on the assumptions, estimates, analysis, and opinions of management made in light of its experience and its perception of trends, current conditions and expected developments, as well as other factors that management believes to be relevant and reasonable in the circumstances at the date that such statements are made, but which may prove to be incorrect. The material factors and assumptions used to develop the forward-looking information contained in this news release include, but are not limited to, key personnel and qualified employees continuing their involvement with the Company; the Company's ability to secure additional financing on reasonable terms; the competitive conditions of the industries in which the Company operates; and laws and any amendments thereto applicable to the Company.

Forward-looking information involves known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the Company to differ materially from any future results, performance or achievements expressed or implied by the forward-looking information, including, without limitation, risks relating to the future business plans of the Company; risks that the Company will not be able to retain its key personnel; risks that the Company will not be able to secure financing on reasonable terms or at all, as well as all of the other risks as described in the Company's annual management discussion and analysis dated July 31, 2023 under the heading "Risks Factors." Accordingly, readers should not place undue reliance on any such forward-looking information. Further, any forward-looking information speaks only as of the date on which such statement is made. New factors emerge from time to time, and it is not possible for the Company's management to predict all such factors and to assess in advance the impact of each such factor on the Company's business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking information. The Company does not undertake any obligation to update any forward-looking information to reflect information or events after the date on which it is made or to reflect the occurrence of unanticipated events, except as required by law, including securities laws.

The CSE does not accept responsibility for the adequacy or accuracy of this release.
